[Verse]

I'm not looking for reaction

I'm not up for any more requests

You've lost my interest

I'm sure you probably could have guessed

Did you think that we could be friends

You'd better learn how to be a good friend first

The only way for you to hold me

Always seemed to be behind closed doors

[Bridge]

Don't call to tell me you're not trying

When you try to get me back

I'm not so sure you even knew

What you had

[Chorus]

How many times will you get it wrong

Before you get it right, oh right, oh right

You have my love in your hands

But I m taking it back
Because it s not alright
And you already got your second chance
And you already got your second chance

C

I don t feel anything, anymore

Am
