F# C# A#m G#

If you're scared, let it go
And if you ever have a doubt now you know
That your heart, it won't break
And it was never good at making mistakes

F# G# A#m

So it's no wonder my love goes on and on

G# C#

You were always easy for me

F# G#

And it's no wonder I knew, all along

F# C# A#m G#

Even when I know you feel like flying away
Believe me when I tell you that my love hasn't changed
In the moment don't forget
Tomorrow it will all turn around
I'll be waiting when you come down

F# C# A#m G#

Here we go, once again
Trying to break it when it wants to bend
Got your head, in the clouds
And oh you feel so far away from me now

F# G# A#m

But still my love, my love goes on and on

G# C#

I'm trying to make it easy for you

F# G#

But I don't know if my love will ever be enough

F# C# A#m G#

Even when I know you feel like flying away
Believe me when I tell you that my love hasn't changed
In the moment don't forget
Tomorrow it will all turn around
I'll be waiting when you come down

D#m A#m C# G#

How can I get you where you wanna go
When you don't know where you wanna go
Push me away, then you pull me close

And I hold on, and you let go

F# C# A#m G#

Even when I know you feel like flying away

Believe me when I tell you that my love hasn't changed

In the moment don't forget, don't forget

I'll be waiting when you come down
