Unfortunately, they don't play this song in an acoustic version, but playing this version with a decent classic guitar sounds awesome. I wasn't able to decide for a strumming pattern for the intro, but I guess, something percussive would do the job just great. If I'll get the time, I'll try to do a decent fingerstyle tab and/or a Guitar Pro file for you.

Tuning: Standard Tuning (EADGBE) with Capo IV  
Chords are relative to the Capo!
