

Mardis Gras In Kansas
Truckstop Honeymoon

Truckstop Honeymoon - Mardis Gras in Kansas
Tabbed by: Danny Halstead

Intro: **A E**

A

It s Mardis gras in Kansas

E

There ain t no parade

Still I put on a boa and some plastic beads

A

and this little tutu I made

And I walked up and down this midwest town

D

All I could see were cars

With working stiff s going to work as if

E

A

They didn t know it was Mardi Gras

D

Mardis Gras in Kansas

A

Ain t like it is in New Orleans

E

There s no marching bands

No Dacquiri stands

A

No hookers and no drag queens

D

No tourists falling in the gutter

A

As they put their Margaritas away

E

Mardis Gras in Kansas

A

E

Is just another Tuesday

A

I shoulda known something was up

E

When I saw there was snow on the ground

The neighbours were digging out their driveways

A

And nobody else was around

Thought I made a mistake

And got the wrong date

D

Maybe this was all a dream

It s Mardi Gras, for sure

E

A

E

But it s Kansas and not New Orleans

D

Mardis Gras in Kansas

A

It just ain t the same

E

There s no Mardi Gras rows

No cups to go

A

Nobody playing Eliza Jane

D

Still I put on a rhumba

dance a little number

A

But I felt like a kind of a freak

E

Coz Mardis Gras in Kansas

A

E

Is just another day of the week

SOLO - Play same chords as verse

D

So next year I got a good plan babe

A

I tell you what we gonna do

E

We re going to start the very first ever

A

Kansas Mardi Gras crew

D

Gonna shut down this whole town

A

We re gonna close off every street

E

And then the Kansas High School Marching Band

A **E**

are gonna learn a different beat

D

Mardis Gras in Kansas

A

Ain t like it is in New Orleans

E

There s no marching bands

No Dacquiri stands

A

No hookers and no drag queens

D

But its gonna change, it s gonna get strange

A

It will be like Kansas you have never seen

E

When we get Mardis Gras in Kansas

A

Just like they got in New Orleans

E

Yeah, we ll have Mardis Gras in Kansas

A

Just like they got in New Orleans
