Deep down the verse chord pattern is a familiar one - G E Am7 Bm7
 But the embellishments make it [G9 G] [E9 E] [A7sus4 Am7]
 [B7sus4 Bm7]
 The 9 means that there s an extra note 2 semitones (2 frets) above the root note.
 So G9 is G with an A note somewhere in it (in this case on the top string).
 The A7sus4 adds a D note to A7 - but try playing the Am7 first and then adding your pinky (4th finger) at fret 2. Same idea for the B7sus4 - get the Bm7 first and then add the pinky at fret 5.
 When you listen to the songs lots and play along then the pattern will sound easier.
