Halfway Home

Great song, sounds good put to acoustic chords. Chords for the verses and chorus stay same throughout song but it s nice to play along to the words.

B
The lazy way they turned your head
E
Into a rest stop for the dead
B **E**
And did it all in gold and blue and grey
B
The efforts to allay your dread,
E
In spite of all you knew and said,
B **E**
Were hard to see and harder still to say
B
A comfort plush all laced in lead
E
Was sent to quell your sentiment
B **E**
And keep your trembling sentinel hand at bay
B
And when a sudden silhouette
E
Escaped the top-side of your bed
B **E**
I knew you d never ever be the same

F#m
Is it not me?
C#m
Am I not folded by your touch?
F#m
The words you spoke
E
I know too much
B
It s over now
F#
And not enough
F#m
Is it not me?
C#m

The damage you hold inside your blush?

F#m

The load you towed

E

You showed it up

B

It s over now

F#

And I m insane

B

Wild spirits winds from out your chest

E

Collides with world and wilderness

B

E

It needs a gentle hand to call it home

B

Now surfs the sun and scales the moon

E

And winds the waistband of her womb

B

E

All eyes ablaze the day you break your mold

F#m

Is it not me?

C#m

Am I not culled into your clutch?

F#m

The words you spoke

E

I know too much

B

We re closer now

F#

And said enough

F#m

Is it not me?

C#m

Am I not rolled into your crush?

F#m

The road you chose

E

Unloads control

B

See it take me so
