

## Second Song

### TV on the Radio

Confidence and ignorance approve me

**G**

Define my day today

**Em**

Iâ€™ve tried so hard to

**Dm**

shut it down

**F**

Lock it up, gently walk

**G**

away

Appetites and

**C**

impulses confuse me

Decide my

**A#**

day-to-day

Now my body says

**C**

itâ€™s

over

Shakinâ€™ hands move to tear my face away

And

**A#**

when

**Gm**

the

**A#**

night comes,

**F**

Iâ€™m fiending like a

**G**

pyro

And I know

**C**

it stables my survival

**A#**

When thereâ€™s music all

**F**

â€™round

me

And I havenâ€™t

**G**

got a single word to say

**C**

And then

**F**

the light

**Cm**

shines, itâ€™s

**F**

gleaming like a

**G**

bottle

And Lord

**C**

knows I

**Gm**

tackled it full

**G**

throttle

May I illuminate the

**Gm**

nameless, faceless

**C**

saints

Of

**G**

these hard

**F**

and

**C**

open

graves

Every lover on

**G**

**A**

mission

Shift your known

**C**

position, livin' a lie

**A#**

Every diamond down the

**F**

middle

You are instrumental to

**G**

the

light

Every silent

**C**

evolution

Make your

**A#**

contribution to the light

**F**

Every lover on a mission

**G**

Shift your known position to

**C**

the

light

**G**

**Gm**

Old

**C**

body, mind, leaves me

**F**

behind

And I'll do you one

**C**

better

While you define your heartless

**A#**

time

I'll defend my love forever

**G**

Every lover on

**C**

**A**

**G**

mission

Shift your known position, livin' a lie

Every diamond down the middle

You are instrumental to the light

**F**

Every silent evolution

Make your contribution to

**A#**

the

**F**

light

Every glorious

**A#**

disaster

Everyone

**F**

is gonna

**D**

bring this faster

**F**

out into

**Dm**

the light, the

**Gm**

light
