Shout Me Out
TV On The Radio
Tabbed by Sam Kurcab

Great song. Chords can be played as full barre chords or power chords.

F
Stone, cast me out

C **F**
So I can feel it in another way, I won t talk about

F
Worn, passengers hide

C **F**
If I could feed it for another day, it might run me dry

Bb **C**
I know the seasons evolve to a freeze

F
Putting hearts in the balance here

Bb **C**
It s up to your knees and its shifting degrees

F
And it s choking your atmosphere

F
Stone, wind me out

C **F**
So I can feel it in another way, they won t talk about

F
Warned, massacre sides

C **F**
Distant figure in a photograph, another eye

Bb
I know your reason is stout

C **F**
And you freedom s dissolved in your passion dear

Bb **C**
It s burning your eyes and it s killing your mind

F
And it s broken your atmosphere

Bb **C**
But if you find it s obscene in that gray

G **F**
Oh dramatics hear a young heart say

C
Lord, if you ve got lungs

F

Come on, shout me out

I know the season s unfolding
It s putting your love into action dear
It s up in the breeze and it s shifting degrees
And it s opened your atmosphere
But should you decide it s obscene in that gray
Oh dramatics hear a young heart say
Lord, if you ve got lungs
Come on, shout me out
