

Blasphemy

twenty one pilots

Intro: **Gm F Eb Dm/Eb**

Rap: **Fm Eb C# Cm/Eb**

I start to part two halves of my heart in the dark and I
Don t know where I should go
And the tears and the fears begin to multiply
Taking time in a simple place
In my bed where my head rests on a pillowcase
And it s said that a war s led but I forget
That I let another day go by
I want to be afraid but it seems that these days
I m caught under water and I m falling farther
My heart s getting harder, I m calling my father
Am I screaming to an empty sky?
Empty sky, no way, that s me cause one half of my heart is free
Empty sky, no way, that s me cause the other half of my heart s asleep

Lights, camera, action, satisfaction
At your finger tips no one s lacking stuff
But it s not enough when it seems that
We have enough stuff just to blow stuff up
Lights, camera, stop! We re killing ourselves
Just to get to the top
But we won t stop talking about what we got
And how we all love it when we re loved a lot
Enough about you, let s talk about me
And how everybody thinks I m just so free

Free? Did you hear the verse that came first
And how my own body s waging war on me?
I bet you didn t know something as absurd
There s a word that is said more than any other word
It s sorry, sorry
And I pray that the word was heard
