twenty one pilots

(C G Em D) 8x

C G Em D
I don t know why I feed on emotion
C G Em D
There s a stomach inside my brain
C G
I don t want to be heard
Em D
I want to be listened to
C G Em
Does it bother anyone else
D C G
That someone else has your name?
Em D C
Oh, does it bother anyone else
G Em D
That someone else has your name, your name

G D
I scream, you scream
Em C Am
We all scream cause we re terrified
C D
Of what s around the corner
G D
We stay in place
Em C Am
?Cause we don t want to lose our lives
C D
So let s think of something better.

C G Em D
Down in the forest we ll sing a chorus
C G Em D
One that everybody knows

Hands held higher, we ll be on fire
C G Em D
Singing songs that nobody wrote.

White flags are hoisted
C G
I took some food for thought

Ponte: **Em D G C**

Em
Quickly moving towards a storm
Moving forward, torn
In to pieces over reasons
Of what these storms are for
D
I don t understand why everything I adore
Takes a different form when I squint my eyes
G
Have you ever done that
When you squint your eyes
And your eyelashes make it look a little not right
C

And then when just enough light
Comes from just the right side
And you find you're not who you're supposed to be?

Em

This is not what you're supposed to see
Please, remember me? I am supposed to be

D

King of a kingdom or swinging on a swing
Something happened to my imagination

G

This situation's becoming dire
My treehouse is on fire
And for some reason I smell gas on my hands

C

This is not what I had planned
This is not what I had planned.

C G Em D

Down in the forest

C G Em D

We'll sing a chorus

C G Em D

Hands held higher, we'll be on fire

C G Em D

Singing songs that nobody wrote.
