[Verse 1]

Em Am G B7
Now is the climax to the story
Em Am G B7
That gives the demons and angels purpose
Em Am G B7
They fly around while we are walking
Em Am G B7 C
And mold our emotions just to please them

[Chorus]

D Em
I am cold, can you hear
G B7 C
I will fly, with no hope, no fear
D Em
And the ground, taunts my wings
G D
Plummet as I sing, plummet as I sing

Em Am G B7

Em Am G

[Verse 2]

B7 Em
All we are is an isle of flightless birds
Am G
We find our worth in giving birth and stuff
B7
We re lining our homes against winding roads
And we think the going is tough

Em Am
 We pick songs to sing, remind us of things that no body cares about
 G B7
 And honestly we re probably more suicidal than ever now
 Em Am G
 If you decide to live by, what you think s wrong and what s right
 B7
 Believe me you ll begin to wish you were sleeping
 Em
 Your weeping will creep in head and you ll cry
 Am G
 But if we wake up every morning and decide what we believe
 B7 Em Am G B7
 We can take apart our very heart and the light will set us free

[Chorus]

C D Em
 I am cold, can you hear
 G B C
 I will fly, with no hope, no fear
 D Em
 And the ground, taunts my wings
 G D C
 Plummet as I sing, plummet as I

D Em
 I am cold, can you hear
 G D C
 I will fly, with no hope, no fear
 D Em
 And the ground, taunts my wings
 G D
 Plummet as I sing, plummet as I

[Verse 3]

C
 How frustrating, and so degrading
 D
 His time, we re wasting
 Em
 And time will fly by and the sky will cry as light is fading
 And he is waiting, oh so patiently
 G D
 While we repeat the same routine as we will please comfortability
 C
 Please think about why you can t sleep in the evening
 D
 And please don t be afraid of what your soul is really thinking

Em

Your soul knows good and evil, your soul knows both sides

G

And it s time you pick your battle, and I promise you this is mine
