

Levitate
twenty one pilots

[Intro]

Bm Em Bm

[Chorus]

Bm

Oh, I know how to levitate up off my feet

Em

And ever since the seventh grade I learned to fire-breathe

Bm

And though I feed on things that fell

Bm

You can learn to levitate with just a little help

Em

Learn to levitate with just a little help

[Verse 1]

Em

Come down, come down

Bm

Cowards only come through when the hour s late

Em

And everyone s asleep, mind you

Bm

Now show up, show up

Em

I know I shouldn t say this

Bm

Em

But a curse from you is all that I would need right now, man

Bm

Come down, come down

Bm

Cowards only come through when the hour s late

Em

And everyone s asleep, mind you

Bm

Now show up, show up

Em

I know I shouldn t say this

Bm

Em

But a curse from you is all that I would need right now, man

[Verse 2]

Em

Danger in the fabric of this thing I made

Em

I probably shouldn t show you, but it s way too late

Em

My heart is with you hiding, but my mind s not made

Em

Now they know it like we both knew for some time I d say

Bm **Bm**

They re smirking at first blood, they re circling above

Bm

But this is not enough

Em

Yeah, this is not what you thought

Bm

No, no we are not just graffiti on a passing train

Em

I got back what I once bought back

Em

In that slot I won t need to replace

Bm

This culture is a poacher of overexposure, not today

Bm

Don t feed me to the vultures

Em

I am a vulture who feeds on pain

Bm

Sleep in a well-lit room, don t let the shadow through

Bm

And sever all I knew, yeah, sever all

Em

I thought I could depend on my weekends

Em

On the freezing ground that I m sleeping on

Em

Please, keep me from; please, keep me down from the ledges

Em

Better test it, wooden wedges under doorways

Em

Keep your wooden wedges under doors

Em

Chorus, verse, chorus, verse

Em

Now here comes the eight

Em

Wait, habits here too

Em

You re the worst, your structure compensates

Em

But compensation feels a lot like rising up to dominate by track two

Em

At least they all know all they hear comes from a place

[Chorus]

Bm

C Bm

Oh, I know how to levitate up off my feet

Em

And ever since the seventh grade I learned to fire-breathe

Bm

And though I feed on things that fell

Bm

C Bm

You can learn to levitate with just a little help

Em

You can levitate with just a little help

[Outro]
