

Whisper  
twenty one pilots

C# F#  
A brave man said,  
G# C#  
You put a name to a song  
C# F# G# C#  
And it won't change no matter what goes wrong.  
C# F# G# C#  
I'll try my best to find a face and a name  
C# F# G# C#  
I'll sing until we both are one and the same

C F G C x2

C# F# G# C#  
Didn't have much time to see why I was found  
C# F#  
Had to say goodbye  
G# C#  
As time ran out  
C# F#  
Sail across the world  
G#  
Just to find a pearl  
C#  
On the other side  
C# F#  
Hope the pearl won't forget this song  
G# C#  
And won't forget the sky

Bbm G#  
I don't know what I should give,  
C# F#  
Or what I'm to sing  
Bbm G#  
All I can do is give you this  
C# F#  
And let my heart play  
C# F#  
I know your face  
C# G#  
Let this song whisper your name

C# F# G# C#

**C#**                    **F#**                                    **G#**  
A song is not much time to show  
          **C#**  
How beautiful you are  
          **F#**                                    **G#**                                    **C#**  
But I will sing a song to your heart  
**Bbm**                                    **G#**  
I don't know what I should give,  
          **C#**                                    **F#**  
Or what I'm to sing  
**Bbm**                                    **G#**  
All I can do is give you this  
          **C#**                                    **F#**  
And let my heart play  
**C#**                                    **F#**  
I know your face  
**C#**                                    **G#**  
Let this song whisper your name

**Bbm**    **F#**    **C#**    **G#**  
Oh yeah, oh yeah, yeah x2

**Bbm** **F#** **C#** **G#**

**Bbm**                                    **G#**  
I don't know what I should give,  
          **C#**                                    **F#**  
Or what I'm to sing  
**Bbm**                                    **G#**  
All I can do is give you this  
          **C#**                                    **F#**  
And let my heart play  
**Bbm**                                    **G#**  
I know your face  
**C#**                                    **G#**                                    **C#**  
Let this song whisper your name
