

Five Seconds Acoustic
Twin Shadow

Transcribed this from Twin Shadow (George Lewis Jr.)'s solo electric performance of Five Seconds at SiriusXMU Sessions: http://www.youtube.com/watch?v=-E-1_J-2954. It's so simple but such a good version of the song.

There's a few little riffs in there that I didn't tab out, but this is the basic idea of the song. It should be all right unless I missed a typo or two.

My first tab so let me know what you think. Have fun!
