Verse 1

```
E           F#
It happened in broad daylight
G           F#
So unexpected came the knife
E           F#
A child s scream sliced through the air
G           F#
But no one came or seemed to care. No!
E           F#
The man s description did little good
G           F#
A local stranger from the neighbourhood
E           F#
Those little kids oh, he left behind
G           F#
With their mangled minds and tortured minds
E           F#
Since he didn t seem to care
G#          F#
Then don t you think its only fair?
E           F#          G           F#
Call for street justice, let no mercy show!
E           F#          G           F#
Call for street justice, don t let him go!
```
