

Remember My Name  
Two Door Cinema Club

**Dm**            **Am**  
Lift the stone,  
         **F**                            **C**  
It can't be left alone  
         **Dm**                    **Am**  
If I hide underneath  
         **G**  
I give in

**Dm**            **Am**  
Turn the page  
         **F**                            **C**  
And forgive all my rage  
         **Dm**                    **Am**  
And my pride at belief  
         **G**  
I can win

**F**  
All is good,  
         **Am**  
All is great,  
         **C**                            **G**  
And it's never too late  
         **F**            **G**                            **C**  
I will live to see another day  
         **Am**                            **Em**  
The rising sun is sure to come  
         **F**  
And I can hide,  
         **C**  
But I can't run  
         **Am**  
And fingertips  
         **Em**  
On dried out lips  
         **F**  
Reminding, too, that they are

**Dm**            **Am**  
One and the same,  
         **F**                            **C**  
But go by many names  
         **Dm**                    **Am**  
To answer each of them  
         **G**

Is not a choice

**Dm**        **Am**  
So live unknown  
**F**                **C**  
Until you find a home  
**Dm**                **Am**  
Until you find a way  
**G**  
To use your voice

**F**  
All is good,  
**Am**  
All is great,  
**C**                **G**  
And it s never too late  
**F**        **G**                **C**  
I will live to see another day  
**Am**                **Em**  
The rising sun is sure to come  
**F**  
And I can hide,  
**C**  
But I can t run  
**Am**  
And fingertips  
**Em**  
On dried out lips  
**F**  
Reminding, too, that they are

**F**        **G**                **Am**  
Only running round in circles every time  
**F**  
And it won t end  
**G**                **Am**  
Until they understand  
**F**        **G**                **Am**  
And I ve been waiting for that moment on the line  
**F**  
And it won t bend  
**G**                **C**  
So take me by the hand

**Am**                **Em**  
The rising sun is sure to come  
**F**  
And I can hide,  
**C**  
But I can t run  
**Am**  
And fingertips

**Em**

On dried out lips

**F**

**C**

Reminding, too, that they are one

**Am**

And all that s passed

**Em**

Will make it last

**F**

**Am**

If you never find a way

**G**

**F**

To remember my name
