ONLY GIRL I EVER LOVED

G ef# G ef# G

G
Once upon a time in a bathroom
B
Unceremoniously curled up on the floor
Am D
Was a girl I used to know, finally at peace with it all
G
The dealer had changed suppliers
B
She'd even bought a brand new rig
Am
She told me it was the last time
D
But then again she always did
G Em
The only girl I ever loved lives in heaven up above
Am D
The only girl I ever loved lives in heaven up above
G
Well she didn't come from this town
B
But then again not many of us do
Am
We're just here just to make it big
D
But not many get through
G Em
The only girl I ever loved lives in heaven up above
Am D
The only girl I ever loved lives in heaven up above
G
And some of my friends they be junkies
B
But they're just trying to get through
Am
They're either cutting down or getting off the stuff
D
But I can see right through
G
And some of them they seem to be immune
B
While others they just disappear

Am **D**
The wise ones they just grow up and get the fuck out of here

G **Em**
The only girl I ever loved lives in heaven up above

Am **D**
The only girl I ever loved lives in heaven up above

G **Em**
The only girl I ever loved lives in heaven up above

Am **D**
The only girl I ever loved lives in heaven up above
