

What If

Tyla J Pallas

WHAT IF

(Tyla)

Em A G (for the whole song)

Before you even dreamt my imaginary friends were fame
Before you even knew who I was I knew your name
Before you could spell trouble involved my name
Before I could say half of you was insane

What if I m the one that you will never know
What if I m the one and you just let me go

What if we never meet or you just think I m a creep
Well, I ve survived all this time, I m just having a fucking bad week
What if I m the one that you will never know
What if I m the one and you just let it go

What if I m the one that you will never know
What if I m the one and you will never ever know

I might be the one you want to hold you down the road
I might be the face in the mirror, the one that you got told
You gotta hold your arm tight into the deep end of ...

What if I m the one that you will never know
