It s hard to say the time and place that I knew

How the world still spins when the door opens and you walk into the room

When youre near, theres a sound, theres a sense I can feel

Something I cant explain but its real, yeah its real

D **Bm**
From the time Im waking, through the days Im facing
G **D** **A**
Till the sleep Im faking, I belong with you
D **Bm**
Till the stars stop falling, till the wind stops calling
G **D** **A** **D**
Till we lose our moment, I belong, I belong with you

D **G**
From the bells that ring when we can never knew
D **G**
To the parking lot where our eyes locked and the stories all come true
G **Bm** **A** **G**
Im aware yeah sparks fly by through the air
Bm **A** **G** **A**
And the night lights up everywhere cause youre there

Chorus:

From the time Im waking, through the days Im facing
Till the sleep Im faking, I belong with you
Till the stars stop falling, till the wind stops calling
Till we lose our moment, I belong, I belong with you
I belong with you

Bridge:

Everything I do just reminds me again
Like a picture of you painted under my skin
If love is a mystery then my only clue is
Some belong together like I do to you

Chorus:

From the time Im waking, through the days Im facing
Till the sleep Im faking, I belong with you
Till the stars stop falling, till the wind stops calling
Till we lose our moment, I belong, I belong with you
I belong with you. Oh, I belong, I belong with you.
