G **D**
Everybody knows,
G **D**
or has a story bout the first one
G **C** **D** **Am7**
Who taught them how to hurt,
G **D** **G**
and led their hopes astray
Em7 **D**
When its gone on quite enough and your sick of staying down
C
I know what you need, but you gotta live it like it sounds

Chorus

G **D**
When you lose what you love, live on live on
G **D**
When the road gets too rough, be strong, be strong
Em7 **D**
What you can't understand, but you're starting to see
C
it'll work in the end, you just got to believe
D G **D C**
And keep on, keep on
D G
Keep on keep on

G **D**
I had my ideals,
G **D**
my plans so cut and dry
G **C** **D** **Am7**
I wouldn't settle for a thing
G **D** **C**
And you can forget all compromise
Em7 **D**
But I was tackled like a wave, stormed on like the ground
C
What once would never change, was slowly turning round

Chorus

Em7

D

You can take it from me, there s so much you can be

C

G

And it s all gonna change, whether it s you or them or me
