**G** **D**  
Everybody knows,  
**G** **D**  
or has a story bout the first one  
**G** **C** **D** **Am7**  
Who taught them how to hurt,  
**G** **D** **G**  
and led their hopes astray  
**Em7** **D**  
When its gone on quite enough and your sick of staying down  
**C**  
I know what you need, but you gotta live it like it sounds

Chorus

**G** **D**  
When you lose what you love, live on live on  
**G** **D**  
When the road gets too rough, be strong, be strong  
**Em7** **D**  
What you can't understand, but you're starting to see  
**C**  
it'll work in the end, you just got to believe  
**D G** **D C**  
And keep on, keep on  
**D G**  
Keep on keep on

**G** **D**  
I had my ideals,  
**G** **D**  
my plans so cut and dry  
**G** **C** **D** **Am7**  
I wouldn't settle for a thing  
**G** **D** **C**  
And you can forget all compromise  
**Em7** **D**  
But I was tackled like a wave, stormed on like the ground  
**C**  
What once would never change, was slowly turning round

Chorus
