3 a.m., she ll call you up when she s lonely  
**G** **C**  
She ll just drive, without a clue where she s goin  
  
**G**  
She ll try to tell a joke, and get the punch line wrong  
  
**C**  
Forget all the words, to her own forget song  
**Em**  
And when she walks into the room, she ll set it alight  
**C**  
And she ll always be on your side  
  
**D** **G**  
That s just the way that she loves  
**C**  
That s just the way that she moves you  
**Em**  
She ll take you higher than high  
**C**  
Boy you can try, just know you won t ever get enough  
**D** **G** **C**  
That s just the way that she loves, woah  
  
**D** **G** **C**  
Well she s gonna cry, before the credits start rolling  
**G**  
She s gonna give you her heart, woah,  
**C**  
and it s gonna feel like you ve stole it  
**G**  
Ah, she ll have her hair pulled back, and your t-shirt on  
**C**  
Won t need to take a picture, darlin , cause after she s gone  
**Em** **D**  
Yeah you still remember you re gonna be  
**C**  
thinking about her every minute all night long  
  
**D** **G**  
That s just the way that she loves  
**C**  
That s just the way that she moves you  
**Em**  
She ll take you higher than high

**C**  
Boy you can try, just know you won't ever get enough  
**D** **G**  
She's gonna set you on fire  
**C**  
She's gonna light up your midnight  
**Em**  
And if you lose her she's always,  
**D** **C** **D**  
silhouette in the hallway, the one you can't stop thinking of  
**Em**  
That's just the way that she loves
