But I m gonna love you anyhow

And you don t see me like I see you

But I m gonna be here when you do

Pre-Chorus:

And your past, it ain t lost on me

So your careful ways even your angry face

It s still looking pretty good to me

Well I know that what will be will be

As sure as winter finds its way to spring

So I sit here restless patiently

Until something in you moves for me

Pre-Chorus:

I heard you say you loved me in your sleep

What I d give to be in that dream

When you finally bloom for me

I wonder what color you will be

Chorus:

Well you had your doubts but I m still around

And your past, it ain t lost on me

So your careful ways even your angry face

Well it s still looking pretty good to me
