Intro:

C F C
Am G C

Well I know that you don t love me now

But I m gonna love you anyhow
And you don t see me like I see you
But I m gonna be here when you do

Pre-Chorus:

(**C C/B**) **Am G F**
I heard you say you loved me in your sleep
Am G F
What I d give to be in that dream...

Chorus

Well you ve had your doubts but I m still around
And your past, it ain t lost on me
So your careful ways even your angry face
It s still looking pretty good to me

Well I know that what will be will be
As sure as winter finds its way to spring
So I sit here restless patiently
Until something in you moves for me

Pre-Chorus:

I heard you say you loved me in your sleep
What I d give to be in that dream
When you finally bloom for me
I wonder what color you will be

Chorus:

Well you had your doubts but I m still around
And your past, it ain t lost on me
So your careful ways even your angry face
Well it s still looking pretty good to me

Bridge:
