

Love Song In The Ordinary
Tyler Lyle

G D G C

(Verse 1)

G		D		G		C
Run	through	the	wind	take	the	open
road	in	front	of	you		
G		D		G		C
And	breath	in	the	trees	like	the
early	morning	autumn	breeze			

And pour into life your everything, risk everything

And see in the end the beauty was really worth the pain

(Verse 2)

Jump into life with the training wheels off of your bike

And lift up your hands it doesn t matter what they say

Just stand awake in the love that never asked more than it gives your free to be a child...

(Chorus)

In the sunsets, pouring rain, sleepless nights and endless days first loss

And last chances do not think that we are afraid to dance

But we stumble make it through I look up again and I see you

(Bridge)

So burn with the flame of the glory of your father s name

And live in life soak up all the joy and strife

Go play in the snow find the pot of gold at the end of the rainbow He freed us to be alive,

He freed us to be alive

Repeat Chorus

(Chorus 2)

I see your love in the ordinary face to face with you over coffee

And I dont have to die right now hearing angels sing cause heaven is right here
in the ordinary

Sunsets, pouring rain, sleepless nights, and endless days first loss

And last chances do not think that we are afraid to dance but stumble make it
through I
look up again

And I see you
