

**Some Kind Of Beautiful**  
**Tyler Ward**

**C**

Driving home in the rain

**C**

Seven miles from lover s lane

**Am**

Got her taste on my lips

**Am**

Still feel her on my fingertips

**F**

And now she makes me feel

**G**

Like I ll never be alone again

**C**

Cause I ve never had love like this

**C**

Her eyes, that smile

**C**

Can make the young boys stay awhile

**Am**

I took a picture with my memory

**Am**

So I can fall asleep

**Am**

With you next to me all the time

**F        G**

She makes me feel like I ll never be alone again

**C**

Cause I ve never known love like this

Chorus:

**F**

**G**

**C**

And you are some kind of beautiful

(Gotta take a chance running after somebody)

**F**

**G**

**C**

And you are some kind of beautiful

**C**

We re alone

**C**

I am safe

**C**

All my fears fades away

**Am**

I am home in your gaze

**C**

Will you stay

**Am**

Will you stay

**F**                    **G**

And now she makes me feel like I ll never be alone again

**C**

Cause I ve never known love like this

Chorus:

**F**                    **G**                    **C**

(Gotta take a chance running after somebody)

**F**                    **G**                    **C**

And you are some kind of beautiful

**F**

I fall asleep with you next to me

**G**

Memorize the sound of your heartbeat

**Am**                    **C**

It s beating loud from this point of view

**F**

I can t believe that you re near me

**G**

You took all that I m fearing

**Am**                    **C**

And turned all my skies to blue

**F**                    **G**                    **C**

And you are some kind of beautiful

(Gotta take a chance running after somebody)

**F**                    **G**                    **C**

And you are some kind of beautiful
