13 (There Is a Light)
U2

[Intro] **G   Bm   A**

```
        G                     D
And if the terrors of the night
      G                   D/F#
Come creeping into your days
      G           D                     A
And the world comes stealing children from your room

         G      Bm   A
Guard your innocence
          G      Bm   A
From hallucination
                 G Bm    A                   E
And know the darkness always gathers around the light

        G                     D
There is a light, you can t always see
               A                   Bm
If there is a world, we can t always be
               G                   D
If there is a dark, that we shouldn t doubt
               A                   Bm   E
And there is a light, don t let it go out

        G                   D
When the wind screams and shouts
      G                   D/F#
And the sea is a dragon s tale
      G           D                     A
And the ship that stole your heart away set sail

        G      Bm   A
When all you ve learned is leaving
         G Bm    A
And all you got is grieving
         G  Bm    A
And all you know is leading
    G      D             E
Ah da-da, ah da-da-da, ah-da

        G                     D
If there is a light, you can t always see
               A                   Bm
If there is a world, we can t always be
               G                   D
If there is a dark, that we shouldn t doubt
```

```
                    A                            Bm
And there is a light, don t let it go out

                        G    D    A         Bm
 Cause this is a song, a song for someone
              E
Someone like me

          G               D
I know the world is done
     G                       D/F#
But you don t have to be
          G                 D                    D/F#
I ve got a question for the child in you before it leaves

         G           Bm        A
Are you tough enough to be kind?
         G               Bm           A
Do you know your heart has it s own mind?
            G       Bm          A
Darkness gathers around the lights
        G           E
Hold on, hold on

           G                       D
There is a light, you can t always see
              A                       Bm
If there is a world, we can t always be
              G                       D
If there is a dark, that we shouldn t doubt
              A                       Bm
And there is a light, don t let it go out

             G    D    A         Bm
And this is a so-o-o-ong, a song for someone
          G    D    A         Bm
This is a so-o-o-ong, a song for someone
             E
Someone like me
             E
Someone like me
             E
Someone like me
```
