INTRO: Play X4

**A          A/G          D/F#          D Dsus D**

**A          A/G          D/F#          D Dsus D**

On the fifth day of May, she was breaking away

**A          A/G          D/F#          D Dsus D**

When the moon came and sat on your shoulder

**A          A/G          D/F#          D Dsus D**

She was still young, not yet highly strung

**A          A/G          D/F#          D Dsus D**

As you need to be when you get older

**A          A/G          D/F#          D Dsus D**

George was a street, when you first faced the feat

**A          A/G          D/F#          D Dsus D**

You put money on the color of the sky

**A          A/G          D/F#          D Dsus D**

Well the color of her voice left you there no choice

**A          A/G          D/F#          D Dsus D**

But to drink the Liffey dry

CHORUS

**F                  C**

The seeds that you sow

**G**

You outta watch them growing

**A                  G**

Wild, you grow wild

**G                  C                  Em**

You grow wild in my heart

**A** **G**  
Wild, you grow wild

**G** **C** **Em**  
You grow wild in my heart

**A** **A**

**A** **A/G** **D/F#** **D Dsus D**  
Here comes Holy Joe, now how would he know

**A** **A/G** **D/F#** **D Dsus D**  
How laughter can make a man cruel

**A** **A/G** **D/F#** **D Dsus D**  
It s fire on fire, and lovers conspire

**A** **A/G** **D/F#** **D Dsus D**  
To either a duet or duel

**A** **A/G** **D/F#** **D Dsus D**  
When it s fire on fire, the flames just get higher

**A** **A/G** **D/F#** **D Dsus D**  
The harder you work to put them out

**A** **A/G** **D/F#** **D Dsus D**  
Well you know that you re similar, sugar and weedkiller

**A** **A/G** **D/F#** **D Dsus D**  
Both heading north facing south

#### CHORUS

**F** **C**  
The seeds that you sow

**G**  
You outta watch them growing

**A** **G**  
Wild, you grow wild

**G** **C** **Em**  
You grow wild in my heart

**A** **G**  
Wild, you grow wild

**G** **C** **Em**  
You grow wild in my heart

**A** **A**  
Wild...

**A** **A/G** **D/F#** **D Dsus D**  
What s on your breath is the fear of death

**A** **A/G** **D/F#** **D Dsus D**  
That makes such a man promiscuous

**A** **A/G** **D/F#** **D Dsus D**

Your mouth was dry like when you were bound to lie

**A            A/G            D/F#            D Dsus D**

And her lips are so luscious

**A            A/G            D/F#            D Dsus D**

You've seen it before, you hurled at her door

**A            A/G            D/F#            D Dsus D**

Like a dog when she needed a man

**A            A/G            D/F#            D Dsus D**

Now she aches and she breaks, and she takes

**A            A/G            D/F#            D Dsus D**

All the weight of your world, cause she almost can

# CHORUS

**F            C**

The seeds that you sow

**G**

You outta watch them growing

**F            C**

The wind, where will it blow

**G**

My flower child... growing

**A                    G**

Wild, you grow wild

**G            C            Em**

You grow wild in my heart

**A                    G**

Wild, you grow wild

**G            C            Em**

You grow wild in my heart

**A            A    A    A**

Wild...

**A            A/G            D/F#            D Dsus D**

The sky was steel grey, up on Appian Way

**A            A/G            D/F#            D Dsus D**

As the yellow hats dug up the road

**A            A/G            D/F#            D Dsus D**

Didn't hear what you said, as the lights turned red

**A            A/G            D/F#            D Dsus D**

On a love that should have stayed gold

**A**

Gold...

**A                    G**

Wild, you grow wild

**G            C            Em**

You grow wild in my heart

**A** **G**

Wild, you grow wild

**G** **C** **Em**

You grow wild in my heart

**A** **G**

Wild, you grow wild

**G** **C** **Em**

You grow wild in my heart

**A** **G**

Wild, you grow wild

**G** **C** **Em**

You grow wild in my heart
