

Mysterious Ways

U2

(Heavy distortion recommended)

This song can be played with a capo on the 8th fret, if you can do that. Then it becomes fairly simple just playing D instead of A, etc. (see the chord formations). Or you can play it with a capo on 1st fret, which is how I've finally put the chords. [Editor's Comment]

Intro/transitions: (Repeated about 9 times)

```
E-----  
B-----10-10-----  
G-----9--9-----  
D-----7--7--7-----  
A-10-----  
E-----
```

(Note: the above is basically the A chord played on a few strings)

(Note: chords given below generally are played by an organ in background)

```
A                      D  
Johnny took a walk with your sister the moon  
      A                      E  
Let her pale light in to fill up your room  
A                      D  
You've been living underground, eating from a can  
A                      E                      A  
You've been running away from what you don't understand (love)
```

Chorus: (the chorus basically just switches back between the A and D chords)

```
E-----10-10-|-----  
B-----10-10---10-10-|-----  
G-----9--9---7--7-|-----  
D-----7--7-----|-----  
A-----|-----  
E-----|-----  
      (A)      (D)
```

(So, when you see A or D, play the above chord formations, respectively)

```
A                      D  
She's sloppy, you're sliding down  
A                      D  
She'll be there when you hit the ground  
  
A                      D  
It's alright...it's alright...it's alright  
C                      G
```
