

Moonlight Lover UB40

Here is the Reggae/Rhythm Guitar Chord Structure and Norman s Lead Vocal with Gilly G s Rap for UB40 s forthcoming single after over six years without one and it s called Moonlight Lover [feat: Gilly G] and it s taken from their forthcoming new studio album For The Many due for release FEB-2019, I got the single yesterday as another gift for yet another album delay, But if you ve seen UB40 live recently they have added Moonlight Lover to their live sets and of course it s been leaked over various web sites so you will be able to find it, It ll probably be on the radio here in the UK too?!

Played in a typical UB40 style using a staccato Chord chop on the 2nd & 4th beats of each Measure/Bar.

[Chords]

C=EADGBE	Am=EADGBE	F=EADGBE	G=EADGBE	Ab=EADGBE
x35553	577555	133211	355433	466544

(a C* means staccato chop that C Chord to fade then resume on the 2nd & 4th of the measure/bar when the Chord pattern returns)
