or on the site

A **Bm**
You try to close your ears
A **Bm**
And you try to close your eyes
A **Bm**
But the blasphemies keep coming
A **Bm**
Tempting you with lies

(Chorus)

D **A**
Give thanks for you protection
D **A**
Your watchdogs of the night
D **A**
Who hold the hungry wolves at bay
D **E** **E**
And keep them out of sight, out of sight

A **Bm**
You just don't understand it
A **Bm**
But it strikes a distant chord
A **Bm**
So you look for away of escaping
A **Bm**
And sanity's restored

(Chorus)

D **A**
Give thanks for your protection
D **A**
the watchdogs of the night
D **A**
Who hold the hungry wolves at bay
D **E** **E**
And keep them out of sight, out of sight

A **Bm**
You focus your direction
A **Bm**
Cloak tightly pulled around
A **Bm**
But somewhere in the distance
A **Bm**
You can hear a haunting sound

(Chorus)

D **A**
Give thanks for your protection
D **A**
the watchdogs of the night
D **A**
Who hold the hungry wolves at bay
D **E** **E**
And keep them out of sight, out of sight

A **Bm**
You're in danger of corruption
A **Bm**
And you're always running scared
A **Bm**
You cannot make decisions
A **Bm**
You're completely unprepared

(Chorus)

D **A**
Give thanks for your protection
D **A**
the watchdogs of the night
D **A**
Who hold the hungry wolves at bay
D **E** **E**
And keep them out of sight, out of sight
