G **Am**
You try to close your ears
G **Am**
And you try to close your eyes
G **Am**
But the blasphemies keep coming
G **Am**
Tempting you with lies

(Chorus)

C **G**
Give thanks for you protection
C **G**
Your watchdogs of the night
C **G**
Who hold the hungry wolves at bay
C **D** **D**
And keep them out of sight, out of sight

G **Am**
You just don't understand it
G **Am**
But it strikes a distant chord
G **Am**
So you look for away of escaping
G **Am**
And sanity`s restored

(Chorus)

C **G**
Give thanks for your protection
C **G**
the watchdogs of the night
C **G**
Who hold the hungry wolves at bay
C **D** **D**
And keep them out of sight, out of sight

G **Am**
You focus your direction
G **Am**
Cloak tightly pulled around
G **Am**
But somewhere in the distance
G **Am**
You can hear a haunting sound

(Chorus)

C **G**
Give thanks for your protection
C **G**
the watchdogs of the night
C **G**
Who hold the hungry wolves at bay
C **D** **D**
And keep them out of sight, out of sight

G **Am**
You're in danger of corruption
G **Am**
And you're always running scared
G **Am**
You cannot make decisions
G **Am**
You're completely unprepared

(Chorus)

C **G**
Give thanks for your protection
C **G**
the watchdogs of the night
C **G**
Who hold the hungry wolves at bay
C **D** **D**
And keep them out of sight, out of sight
