G# **Bbm**
You try to close your ears
G# **Bbm**
And you try to close your eyes
G# **Bbm**
But the blasphemies keep coming
G# **Bbm**
Tempting you with lies

(Chorus)

C# **G#**
Give thanks for you protection
C# **G#**
Your watchdogs of the night
C# **G#**
Who hold the hungry wolves at bay
C# **Eb** **Eb**
And keep them out of sight, out of sight

G# **Bbm**
You just don't understand it
G# **Bbm**
But it strikes a distant chord
G# **Bbm**
So you look for away of escaping
G# **Bbm**
And sanity's restored

(Chorus)

C# **G#**
Give thanks for your protection
C# **G#**
the watchdogs of the night
C# **G#**
Who hold the hungry wolves at bay
C# **Eb** **Eb**
And keep them out of sight, out of sight

G# **Bbm**
You focus your direction
G# **Bbm**
Cloak tightly pulled around
G# **Bbm**
But somewhere in the distance
G# **Bbm**
You can hear a haunting sound

(Chorus)

C# **G#**
Give thanks for your protection
C# **G#**
the watchdogs of the night
C# **G#**
Who hold the hungry wolves at bay
C# **Eb** **Eb**
And keep them out of sight, out of sight

G# **Bbm**
You're in danger of corruption
G# **Bbm**
And you're always running scared
G# **Bbm**
You cannot make decisions
G# **Bbm**
You're completely unprepared

(Chorus)

C# **G#**
Give thanks for your protection
C# **G#**
the watchdogs of the night
C# **G#**
Who hold the hungry wolves at bay
C# **Eb** **Eb**
And keep them out of sight, out of sight
