B **C#m**
You try to close your ears
B **C#m**
And you try to close your eyes
B **C#m**
But the blasphemies keep coming
B **C#m**
Tempting you with lies

(Chorus)

E **B**
Give thanks for you protection
E **B**
Your watchdogs of the night
E **B**
Who hold the hungry wolves at bay
E **F#** **F#**
And keep them out of sight, out of sight

B **C#m**
You just don't understand it
B **C#m**
But it strikes a distant chord
B **C#m**
So you look for away of escaping
B **C#m**
And sanity's restored

(Chorus)

E **B**
Give thanks for your protection
E **B**
the watchdogs of the night
E **B**
Who hold the hungry wolves at bay
E **F#** **F#**
And keep them out of sight, out of sight

B **C#m**
You focus your direction
B **C#m**
Cloak tightly pulled around
B **C#m**
But somewhere in the distance
B **C#m**
You can hear a haunting sound

(Chorus)

E **B**
Give thanks for your protection
E **B**
the watchdogs of the night
E **B**
Who hold the hungry wolves at bay
E **F#** **F#**
And keep them out of sight, out of sight

B **C#m**
You're in danger of corruption
B **C#m**
And you're always running scared
B **C#m**
You cannot make decisions
B **C#m**
You're completely unprepared

(Chorus)

E **B**
Give thanks for your protection
E **B**
the watchdogs of the night
E **B**
Who hold the hungry wolves at bay
E **F#** **F#**
And keep them out of sight, out of sight
