(verse 2 - same pattern as the first)

Euston station and its cold as ice

All night specials, they move you on  
But me and ginger over there  
We got this thing where we really take care  
You can come to my place and sleep on the couch  
Lots of people do it and we wont leave you out

(repeat chorus)

After the second chorus michael schenker has an incredible solo which i can t  
tab, but  
Someone could, could you please post it; that would be amazing.
