Chords used are:

A (barre chord) (shown as a cause im lazy.  
F#m (barre chord)(shown as f cause im lazy...

This is only the acoustic guitar, not the ukelele that plays all the riffs and cool hawaii sounds.

You play the song like this: pick the e string with your thumb, and use the rest of your finger to strum the 5 other strings. so you get like a 1-2 rhythem going

on here (base-rest of the strings that is) after 8 strums (8x 1-2) you switch chords. but just play with the music and that thing will explain itself. to get the real sound try muting the strings when you strum (not when you pick the fat E)

Actually, I was thinking  
Said everything out loud

**F**

Cause apricot seeds carry arsenic  
That we don't worry about

**A**

Sitting on your doorstep  
Waiting for you to come home or come out

**F**

Well apple seeds have cyanide  
That we don't care about

**A**

**A**

Buildings built sturdy  
Rolled up and every time

**F**

And as bees get aged and the bellies get to sag  
Well the people fall right out

**A**

Pride is really falling  
I'm proud that I'm not proud

**F**

Well their instincts all fall out

The bus boy's younger brother  
When he drinks he talks too much

**F**

He seemed normal to me  
But at quarter to three  
Well I could see he was a little bit touched

**A**

Actually, I was thinking  
Said everything out loud

**F**

Cause apricot seeds carry arsenic  
That we don't care about
