

Marstorm

Uh Huh Her

No capo, standard tuning. Sounds well on a guitar, but also if you play the synth in the background on a piano or a music creating program it will make it sound 100% better.

Enjoy :)

[E]
I gather nothingâ€™s going my way
[C]
You canâ€™t appreciate the irony
[E] [C]
You build me up, you break me down

[E]
Too bad your empire is falling
[C]
Donâ€™t take us down while youâ€™re sinking
[E] [C]
The battleâ€™s on, it just begun

[E]
This fight it kills us in a free fall
[C]
You take the innocence from people
[E] [C]
I am compelled to go alone, now

[E]
Your breed, Iâ€™ve seen it with my own eyes
[C]
Now you made me your enemy
[E] [C]
The battleâ€™s on, get out your guns

[D]
Give me some love
[AM] [C] [D]
Maybe youâ€™ll see that this is not enough
[AM] [C] [D]
You will see us in the place beyond
[AM]
You can come if you want to
[C] [D]
Come if you want to love something
[AM]
You can come if you want to
[C]

Come if you want to

[E]

You are so careless with your kingdom

[C]

You always throw away the great ones

[E] [C]

But you told me Iâ€™m the one

[E]

I just need someone to believe in

[C]

You cannot rule with integrity

[E] [C]

You break my heart, you break my heart

[D]

Give me some love

[AM] [C] [D]

Maybe youâ€™ll see that this is not enough

[AM] [C] [D]

You will see us in the place beyond

[AM]

You can come if you want to

[C] [D]

Come if you want to love something

[AM]

You can come if you want to

[C]

Come if you want to

[D]

Give me some love

[AM] [C] [D]

What are you scared of, holding on to me?

[AM] [C] [D]

What are you scared of, holding on to me?

[AM]

What are you scared of?
