these 3 chords repeat throughout the whole song, there are some variations he uses

**F**            **C**            **Gm** (play twice)

I look at the starlight  
I am shadowed by the night  
Always run where I can  
And I hide where I want to hide  
Oh but it feels so right  
I want it tonight  
It feels so right

I went out of my mind  
I am caught here one more time  
I know how it feels tonight  
I can do nothing about it

It feels so right  
I want it tonight  
You feel so right

I will wait to love you  
I will wait another day  
For you Iâ€™d leave all this behind

I will wait for you tonight  
I wont waste another dream on you  
Always run to . . . you

I will take the long road  
But it leads right back to you  
Follow you into the sun  
I will steal this time for you

It feels so right  
I want it tonight  
It feels so right

I will wait to love you  
I will wait another day

For you Iâ€™d leave all this behind

I will wait for you tonight

I wonâ€™t waste another dream on you

Always fun to you
