CAPO 3

When you re a kid, you have heroes
You wanna be someone
Now you ve grown, yeah you re older
Your heroes they are gone
I have watched as your hopes and dreams
Slowly fade away
You re humbled by your failures
Before they re even made

Chorus:

So maybe you should do something about it
Those heroes in defeat you ve never doubted
Find your dreams and you might just live them
Don t just be a part of the system

Verse:

You think you re surrounded by responsibilities
That they won t let you move
Give you room enough to breath
You ve heard all reasons

But you don't know what they mean

Now I know you're not listening

So I'm gonna have to scream

Chorus:

So maybe you should do something about it
Those heroes in defeat you've never doubted
Find your dreams and you might just live them
Don't just be a part of the system

Bridge:

If you're even wondering
If life has passed you by
Then my friend you should think again
Cause you've got it all to lose
Right now

Chorus:

So maybe you should do something about it
Those heroes in defeat you've never doubted
So maybe you should do something about it
Those heroes in defeat you've never doubted
Find your dreams and you might just live them
Don't just be a part of the system
So maybe you should do something about it
Those heroes in defeat you've never doubted
