INTRO:
G# Cm

Eb   C#m
Sooner or later
                G#   C
You take off your skin and go to sleep
Eb   C#m
You pray it s forever
              G#   C
If he s still out there, he ll come home

C#   Bbm
Too much, for all they care
        F#   G#
Seen too much, for all they care
      F#   Bbm
Been around, and seen what s there
            F#   G#   C
And you can t bring it back anymore

Eb   C#m
If it gets better
          G#   C
Is there a chance that you ll come back?
Eb   C#m
Or if it s forever

```
        G#                      C
Is there a choice for us to make?

C#                          Bbm
Too much, for all they care
        F#                  G#
Seen too much, for all they care
     F#                     Bbm
Been around, and seen what s there
              F#                G#      F#
And you can t bring it back anymore

Bbm         F#                      G#
You re inside the finest little space
        F#                  Bbm
And the slightest sound just makes you
F#                  G#
Want to close your eyes
     F#                 Bbm
And hold your breath

        F#                  G#
Seen too much, for all they care
     F#                     Bbm
Been around, and seen what s there
              F#                G#      F#
And you can t bring it back anymore

[random picking to fade, use [D Dm A] progression]
