My girlfriend s got a girlfriend now

All my friends say she s just going through a phase
I believed her when she said she just needs a little space
But then I found pictures on her cellular phone
Of them doing things when I wasn t home

It hit me like a brick
I guess, I should have seen the sign
This was more than just a friend
And a bottle of wine

My girlfriend s got a girlfriend now
It was cool for a minute now it s bringing me down
People talking bout it all over this town
My girlfriend s got a girlfriend now

Yeah Mom and Dad, really nothing left to say
I ll be sure to keep you posted if she swings it back this way
I guess, I m not as sad as you think I might be
The part that makes me mad is that they didn t invite me

My girlfriend s got a girlfriend now
It was cool for a minute now it s bringing me down
People talking bout it all over this town
