TURNING IN THE WORLD  
UNDER CONSTRUCTION

**Am F C G Am**  
I have to travel just to find a new way  
**F C G Am**  
Somewhere to go, somewhere to stay  
And when I find this place I feel very fine  
The weather's good when I smile **Am**

**Am F C G Am**  
I hope this happiness will never end  
**F C G Am**  
The world is bad , I understand  
But What if I say I love this feeling too much  
That I pretend that's all right  
RIT:

**Am F C G**  
I'm gonna enjoy with all craziest plays  
**Am F C G**  
Take all my body, paint all my face  
**Am F C G**  
Steal many jewels just to lose the police  
**Am F C G**  
I wanna do all this things. x2

The life is one, so now I can't rest  
I'll cultivate some new interests  
By shaking my life and getting up of my bed  
I'll be able to change

With all my friends, I'll go where I want  
And with my guitar I'll turn all the world  
I think That's so good, the way of life I prefer;  
With no one else care

A walk in paradise with pink and blonde  
Is the only way to know what are you living for  
You can't die without have seen them before  
That's the only way to go!  
Is the very best side of the world  
You've to turn it all to see all the things now I know  
You can't die without have seen them before  
That's the only way to go
