

Carry You
Union J

Hi, don t you love the new single of Union J?? So I really wanted to play it on the guitar, here s what I figured out....not sure about the chorus and the bridge though.. Tips are always welcome! :) oh and I didn t really know what to play with the instrumental part, it isn t really a part you can play on the guitar, I think. The G#m7 is optional..I don t play it, and it sounds right without it but if you want you can play it, you do hear the piano play it, it s up to you! Enjoy x
