(1st verse)

```
A#
Dead state I can feel the weight
D#                               C#
Light streaming in through the open gate
A#
Tooth red score tearing up the floor
D#                               C#
out in the alley with the trigger drawn
A#
Numb hand I can see the strand
D#                               C#
Hold it together with a severed band
A#
Three lost years I ve been crying here
D#                               C#
I m over, I m over, I m over, I m broken
```

(refrão)

```
F      D#                               C#
Strung out on the wings of the dawn
A#
Hole in the back, soul in the storm
F      D#                               C#
Torn down through the cracks in the dark
A#
We re miles adrift we re inches apart
```

(2nd verse)

A#
 I m hit I can feel the grit
 D# C#
 Sat in the asher on a beaten brick
 A#
 Tooth red main running though the vein
 D# C#
 Out in the center with a mirrored cane
 A#
 Numb feet I can hear you speak
 D# C#
 Hold it together with a severed streak
 A#
 Three long years I ve been crying here
 D# C#
 I m over, I m over, I m over, I m broken.

 thrown back to the track to the dirt

 we re miles adrift, we re inches away
