Lyrics:

My love lives at
The end of a rainbow
One day I m gonna
Fly there on a firefly
High above white angry water
With a love song in my heart

Someday, somehow
I know I m gonna get there
I ve been patient for so long
All my daydreams
Seem so much nearer now
And I beg you hear my song

On your glowing wings I ll ride
Till I sit beside
This dream of mine
Only wanna touch
The things I ve seen

Steppin lightly from star to star
Cross a wilderness of blue
Wonderin how much
In love with me you are
cause I m so much in love with you

I ain t had no lovin lately

To my new horizon
The one that I ve still
Got my eyes on, my my firefly

In my dreams you come to me
The answer to my prayer
As I begin to feel
You warm my heart
I awake and you re not there

Now and then I see your eye
As the stars begin to shine
No rain to cool my passion
No! not now!
No, now you re mine!
