Those of us who don't know war

We shouldn't try to make it
C#m G#
So many did and even more died

Do you think you could take it?

Bbm

Just a man in my prime

F#

Love was there

F

But I had no time

Bb

I was cheered and adored

F#

And I thought fame

F

Was all the world

Battles won and victory cheers

Were the sounds

I d heard for years

But the women I really loved

Was losing me

To all this blood

I only knew I had to win

And build a world

Where I was king

But leaders come and leaders go

And that s the truth

I came to know

Love or war I couldn t choose

And so both

I had to lose
