## Us The Duo

This is my first tab! Some of these chords may not be the exact ones used, but they make sense and sound good.

If you are really intent on replicating the beginning:

Em (Down, Up-Down) -

Then I pluck 5th string, 2nd fret

Then I pluck 4th string, open

Then strum down on Em chord

I do this pattern four times to sound like the opening.

At the end I pluck 6th string, 10th fret (from capo) and slide down to 3rd fret
