Capo 2

Chords relative to capo and i prefer to play them open sooooo looking like this:

C#m - x46650

Asus2 - x02200

E - 022100

Bsus2 - x24400

I use these chords and fingerpick the song on an acoustic guitar but you can replace
with the following power chords...

C#5 - x466xx

A5 - x022xx

E5 - 022xxx

B5 - x244xx

C#m

Now, now she loved me, shawty I loved her.
Used to jump up in the Maybach and roll out.

Asus2

Used to care, she used to share...
The love that she used to give me can t be found.

E

I lost my way, she said she d stay.
And lately I ve been sleeping with a ghost!

Bsus2

My stock is down and out, I used to be worth my weight in gold.

C#m

That was before the great depression kicked in and rocked us.

Asus2

And that was before the hurricane, came in and stopped us.

E

I told you to leave, but you lied to me...

Bsus2

When you said that, baby no worries I promise to get us back.

[Chorus:]

C#m

I know sorries, just wouldn t do it.

Asus2

Her heart is obliterated, I m tryna travel through,

E

But it s like moving mountains...

Bsus2

It s like moving mountains... hey.

C#m

But I keep climbing and hoping things would change...

Asus2

And the sky turns grey, and the water from the rain washes progress away.

E

It s like moving mountains...

Bsus2

It s like moving mountains...

Same progression continues throughtout the song. Not particularly hard to figure out

hope it helps in someway
