Lie I Believe - The V-roys
Words and music by the V-roys
>From the album Just Add Ice on E-squared records.
(This is Steve Earle s label, catalog # 1050-2)

This album was released in the fall of 96 and is an excellent roots-rock type record, though one tune (Cry) sounds a bit like early Police and others are reminiscent of, maybe, Cracker and even Elvis Costello w/ the Attractions. However it gets binned, this is great American rock and roll laced with country, very well done, with loads of lyrical cleverness and passion but it probably won t be played on American radio since it doesn t fit snugly into a particular genre. Let s just call it V-roys music, and f@!* the radio--buy the album!

The first bar is a barre chord E minus bass notes, then slide down to Eb and then D (I m not sure here but it sounds okay) before moving up to A for the second bar: play along and its easy to mimic.
