

5150**Van Halen**

Okay, here s the tab for 5150 . This song is a pain in the ass for two reasons: 1)it s tuned to dropped-D 1/2 step down; and 2)there are more doublestops than mere humans (like me) can handle. The little string names on the side of the tab lines SHOULD have a flat next to each of them cause of the 1/2 step down deal, but it s easier just to tune to dropped-**D** unless you plan to jam to the CD or something.

Here s the signature riff of the song (play it FAST!):

Okay, this next part you repeat twice. One time with the first ending that I ve tabbed out (marked between the 1>>>> and to
